

VAUTH-SAGEL

STORAGE SOLUTIONS FOR KITCHENS

VAUTH-SAGEL

VAUTH-SAGEL

For over 50 years, the owner-run family company has been developing, manufacturing and distributing system components of various materials for the medical/care, automotive and caravanning sectors as well as innovative storage space systems for the kitchen and furniture industry. Furthermore, the company offers complete office and care solutions for customers across the globe. To this end, Vauth-Sagel specifically deploys its many years of wire, steel, sheet metal, wood and plastic material competencies.

Around 850 employees develop and manufacture far more than 85 million 'Made in Germany' quality products each year. In-house logistics and a global sales and distribution team round off the tailored range of products and services for clients throughout the world.

**This is our understanding of »Added value,
Made in Germany«.**

CC-PRODUCTS OY

CC - Products Oy is a Finnish family - owned company specializing in imports and wholesale. Our business - idea is to offer our customers leading quality, great product - range and service, which are important factors for success in the demanding times.

To our product - range belongs components for sliding doors, cabinets for sliding doors and kitchen, and mechanisms and cabinets for kitchen.

All our logistic functions are centralized to Lapinjärvi, 90 km east from Helsinki. Modern, 13 000 m² storage space enable us to deliver all our products effectively and

fast, from the same place. Economical stability is very important for long-term business relationships, which is why that we are proud to have gotten the Good Credithworthiness - certificate from Soliditet Ltd.

In addition to our competitive prices, we also have invested in the efficiency and smoothness of all our activities. Therefore it is not a coincidence, that you can find the most competitive products, competent service and rapid deliveries from us.

A quality kitchen adds to the quality of life

The kitchen is the hub of the home, on all continents. To a different degree in different cultures, and designed according to the home owners' tastes and lifestyle – however, it is always the place where everyone meets. A place where you not only cook and eat meals together but also talk, laugh and interact. A kitchen that is perfectly geared towards the needs of its users, makes optimum use of the space available, and combines high quality materials with comfort, functionality and aesthetics is the ideal we have subscribed to for over 50 years. Based on four themed scenarios, we would like to show you just how many faces this ideal kitchen can have – and also illustrate the range of possibilities our storage systems and system components offer. Planning your dream kitchen can be a challenge. With the help of our kitchen scenarios, we want to shift the focus on the fun of planning your kitchen – to make sure that your personal ideal dream kitchen turns into reality as quickly as possible.

MANY PEOPLE ARE LOOKING FOR
INDIVIDUALITY IN THEIR KITCHEN.

Winner

Standard delivery: Organisation drawer with 1x1.2 and 1x2.7 litre boxes.

ORGANISATION DRAWER

The intelligent, add-on storage solution for base cabinets.

The add-on module that acts as an organisation drawer and enhances the waste bin system with an innovative storage solution for kitchen base cabinets. Thanks to the multifunctional fitting options, plastic containers can be variably mounted in the frame construction – depending on the position of the water connections in the base cabinet – and used as handy containers for storing cleaning and kitchen utensils. Mounted on two full pull-outs, the Organisation drawer opens smoothly and closes with gentle attenuation. The mounting with EasyFit and pre-fixing template is just as easy as the handling is convenient.

Details

- Cabinet widths: 500 and 600 mm
- Installation depth: 490 mm
- Installation height: 100 mm
- EasyFit: tool-free installation of bin support onto the runners
- Integral installation template: no measuring necessary when installing into cabinet
- Integral soft-closing and self-closing on both versions

Öko xxliner with three-bin version (1x21 and 2x35 litre)

ÖKO XXLINER WASTE BIN SYSTEM

Large capacity in a small cabinet.

The space-saving Öko xxliner, with its own rail system, automatic closure and soft-close can be installed laterally in a very small kitchen unit, not necessarily below the sink, providing high-capacity, convenient waste disposal close to the worktop.

Details

- Cabinet widths: 500 and 600 mm
- Minimum installation depth: 515 mm
- Minimum installation height: 580 mm
- Integral 3-D front adjustment using an excenter
- Integral soft-closing and self-closing on both versions
- Additional storage available using powder-coated lid

Öko center three-bin version (1x9, 1x12 and 1x18 litre)

ÖKO CENTER WASTE BIN SYSTEM

The hygienic, flexible and practical waste bin system.

When the system is opened the lid lifts up and the bins swing out; when the system is closed, the lid is automatically replaced on the bins. Cleanliness and hygiene are of prime importance. The bins are constructed of high-grade plastic with extra-smooth sides, making them easier to clean.

Details

- Minimum cabinet width: 500 mm
- Minimum installation depth: 450 mm
- Minimum installation height: 525 mm
- EasyFit: tool-free removal and replacement after initial installation
- No additional strain on the front
- Bins swing out automatically when the door is opened
- Can be combined with all standard hinges
- Total capacity system: 39 litre

CORNER CABINETS

CORNERSTONE Basic

CORNERSTONE

The new corner unit solution.

A CORNERSTONE carousel moves the entire contents in front of the unit, thereby unlocking completely new design perspectives. Each shelf can be attached at the required height, and the shelves disappear back inside the unit when the door is closed.

The corner is the new centre

CORNERSTONE brings the entire contents in front of the cabinet and introduces a whole new perspective. The storage units swing in front of the cabinet, providing perfect access without covering adjacent areas.

Perfect attention to detail

CORNERSTONE is simple and clever: the shapely storage units adapt to any mounting situation, whether on the left or on the right. With the new catch and door deflector, opening and closing the cupboard is child's play.

Minimal mounting

The CORNERSTONE corner cabinet solutions need only one fixing point on the mullion or standpipe. This means more storage space and incredibly easy to assemble.

Focus on design

The design of the CORNERSTONE corner cabinet solutions is straightforward and minimalist. The chosen materials meet the highest standards.

Details

- Cabinet widths: 900 and 1000 mm
- Door widths: 450 and 500 mm
- EasyFit method: no tools needed to attach the storage elements to the central tube
- No tools needed to adjust the shelf height
- The upper shelf closes automatically when shutting the door thanks to a castor wheel
- The lower shelf slides out automatically thanks to a carrier mechanism
- System load carrying capacity: max. 20 kg per shelf
- Storage versions: Basic

TIME TO RETHINK THE CORNER.

In kitchens around the world, corners are waiting to be discovered. The plans for many kitchens are based on the corner, but in most cases the existing space is often neglected, hidden and in some cases even forgotten. In the kitchen planning process, corner cabinets don't play a central role.

Vauth-Sagel thinks differently; Vauth-Sagel thinks in new ways: with the CORNERSTONE system solutions, the corner is coming out of the closet and brings the entire contents out in front of the cabinet.

Recorner maxx 3/4 Rail

Recorner maxx 4/4 Rail

RECORNER MAXX

The corner unit solution with optimum storage space.

The Recorner maxx corner unit solutions stands out because of its unique construction. There are no central, space-taking uprights. This creates up to 20 percent more storage space in the middle of the base, ideal for storing awkward kitchen utensils. The bases are stabilised by a traverse that runs through the cabinet. It also wins out aesthetically: no more visually distracting parts. The mechanics are practically invisible.

Details

- Cabinet width 900x900 mm
- Minimum installation depth: 490 mm
- Installation height: 620 mm
- EasyFit: tool-free installation of storage units onto the supporting arms
- Flexible base positioning irrespective of cabinet height
- Can be installed in lower units, high units and wall units
- Can be installed into an existing kitchen
- Maximum load-bearing: 27.5 kg per base

TALL CABINETS

VSA 300 Premea

VSA 300 Saphir

VSA 300/400 PULL-OUT STORAGE UNIT

The storage solution wonders for narrow cabinet.

The practical storage cabinet pull-out with a flowing opening movement uses narrow cabinets for optimal storage space. With a single grip it provides an insight into the entire contents of the cabinet. The elegant tall cabinet solution with a door opening of 160° offers individual, ideal adjustment to the cabinet contents by height-adjustable shelves. Storage containers and packaging find a suitable place here. They are easily visible and thus ready to hand. With only one pull the total inventories are placed in front of the cabinet - the optimal storage solution.

Details

- Cabinet widths: 300 and 400 mm
- Minimum installation depth: 480 mm
- Installation height: VSA: 1700 - 1950 mm (5 baskets)
- EasyFit: tool-free installation of frame onto the lower runners
- EasyFit: tool-free attachment of carriers to mounting frame
- Individual height adjustment for baskets
- Maximum load-bearing: 75 kg
- Storage versions: Saphir

T.O.M. K600

T.O.M. DOOR ORDER MODULE

T.O.M. Door Order Module: more space and order for all the little things at last.

The drawer chaos in kitchens, apartments, bathrooms and offices has finally come to an end. All the small and useful things of our daily life that were stuffed into drawers are put into order and have their place now. T.O.M. , the Door Order Module, is a unique Vauth-Sagel invention. Optimal use of limited storage space; every inch is used in an efficient way. T.O.M. is simply a genius in using the space of cabinet doors that is normally wasted. Easy installation. Any cabinet door offers the necessary space for T.O.M.

Details

- Construction: high-tech aluminium frame with different storage elements made of scratch-proof glassy plastic
- Cabinet widths: 400, 450, 500 and 600 mm
- Installation height: min. 480 mm
- Four different kinds of storage elements in every T.O.M.:
 1. Low, but wide elements
 2. Narrow, but deep elements
 3. Magnetic areas
 4. Hook strips with bungee cords
- Hidden fixing points, no screws spoil the sleek design
- Retrofitting also possible for older wall cabinets
- Adapters for specific doors are included

Wire

Sheet Metal

Wood

Plastic

OUR UNIQUE MATERIAL EXPERTISE IN PROCESSING WIRE, STEEL, SHEET METAL, WOOD AND PLASTIC.

Whether we are producing components from wire, steel, sheet metal, wood or plastic – our yardstick is perfection. Our total concept, »unique material expertise under one roof« creates for our customers a unique value-added chain. Our central development department can create numerous possibilities by combining several different materials.

It doesn't matter whether the material is wire, steel, sheet metal, wood or plastic, or whether the ideal product for the customer is a combination of all five, our reply to the demands posed by the industry is always: for individual system solutions using a variety of materials, Vauth-Sagel is your number one contact both now and in the future.

Caravaning

Automotive

Medical/Care

Multimarket

THE BEST SOLUTIONS FOR THE MOST SECTORS

Caravaning

As specialists in intelligent storage solutions we can provide the caravaning sector with a whole range of products that entirely meet comfort and design requirements as well as safety standards.

Automotive

For decades now it has been our practice as well as one of our strengths to develop production-ready products in close consultation with our customers. These are then manufactured and further improved in-house, without loss of time.

Medical/Care

Medical and care technology demand an especially high safety standard, particularly in terms of precision as the health of each patient is at stake. Prominent clients rely on our operational excellence in this sector.

Multimarket

Vauth-Sagel develops and produces system components for a broad palette of applications. Market-oriented solutions that can be individually implemented for each client and which complete our portfolio.

MADE IN GERMANY

Dependable quality.

Vauth-Sagel has been developing and finishing its products at its manufacturing base in Germany for more than 50 years. Thanks to our expertise and attention to detail, we are able to create top-quality, innovative products, and have thus become an important partner in the national and international furniture industry.

The familiar global brand term »Made in Germany« now has more meaning than ever. Across all the important markets worldwide, this phrase represents not just the highest product quality and outstanding engineering, but also reliable delivery and comprehensive services. This brand term is an important selling point for us in the global marketplace. So important, that in future it will be brought more sharply into focus in our communication.

The German guarantee of quality forms the basis of the Vauth-Sagel quality label, which in future will not only verify the product's provenance but will also have the potential to highlight its outstanding properties.

- EasyFit user-friendly assembly
- FSC® certification for timber used
- ISO 14001
International environmental management standard
- LGA-tested
German product safety guarantee

In order to satisfy these demands, we shall be developing and manufacturing our products in Germany today and in the future. »Think global, act local«, a company principle with promise.

Data and facts

800 employees in total, of whom 76 apprentices in 16 apprenticeship areas

Production areas: 103.000 m²

Types of product: over 7.500

Products manufactured annually: more than 20 million

Products manufactured daily: approx. 90.000

Export quota: 55%

ECOLOGY AND SUSTAINABILITY

The basis of our decision-making for over five decades.

Our long-term success is based not only on the targeted direction of our product development processes or even on our forward-looking corporate business policies, but also on a conscientious approach to how we obtain the necessary resources and respect the environment. Quality, safety at work and environmental consideration together with efficiency and the responsible use of energy are some of our principal corporate aims and are also the personal responsibility of each and every employee. Our responsibility for the environment is firmly anchored as an overarching principle in the Vauth-Sagel corporate image.

The focus is on:

- Active employee protection
- Reasonable use of materials and energy
- Minimal environmental pollution and damage
- Sustainable product development

It goes without saying that compliance with current regulations is part of this, but it also includes the determination to monitor every process every day and to optimise them above and beyond the required standard.

■ What does this mean for Vauth-Sagel?

The reassuring feeling of not only talking about sustainability but also of translating our policies into actions.

■ What does this mean for Vauth-Sagel customers?

Collaboration with a partner who has a documented policy of responsible trading.

A FAMILY-RUN CONSORTIUM

More than 50 years in the service of our customers.

For over 50 years, the owner-run family company has been developing, manufacturing and distributing system components of various materials for the medical/care, automotive and caravanning sectors as well as innovative storage space systems for the kitchen and furniture industry. Furthermore, the company offers complete office and care solutions for customers across the globe. To this end, Vauth-Sagel specifically deploys its many years of wire, steel, sheet metal, wood and plastic material competencies. Around 850 employees develop and manufacture far more than 85 million 'Made in Germany' quality products each year. In-house logistics and a global sales and distribution team round off the tailored range of products and services for clients throughout the world.

**This is our understanding of »Added value,
Made in Germany«.**
